

LogiPrime Solutions delivers native, enterprise-grade integration architecture connecting **Yardi Voyager** directly to **J.P. Morgan Chase** banking services. We eliminate Accounts Payable (AP) wire fraud risk and remove third-party middleware or transaction fees, securing real estate property management cash flows nationwide.

100%

ANNUAL MIDDLEWARE SAVINGS

ENTERPRISE FINTECH & BANKING SOLUTIONS

FRAUD PREVENTION

JPMorgan AVS Wire Validation

Automated account ownership verification embedded directly inside the Yardi vendor onboarding workflow. Queries J.P. Morgan's Account Validation Service (AVS) database to block Business Email Compromise (BEC) and vendor spoofing before payments release.

- **Workflow-Native:** Runs inline inside Yardi Voyager.
- **Speed:** Account checks completed in < 15 mins.
- **Compliance:** Full audit logs for E&O and cyber liability.

PAYMENT AUTOMATION

Yardi to J.P. Morgan Host-to-Host (H2H)

Direct payment automation for ACH, domestic/international wires, and check disbursements. Transmits ISO 20022 standardized files (pain.001 / pain.002) over encrypted SFTP directly from Yardi to J.P. Morgan Pay Source.

- **Zero Middleware:** Eliminates TMS fees (\$50k+ saved).
- **ISO 20022:** Full support for pain.001 & pain.002 files.
- **Reconciliation:** Automated real-time status reporting.

YARDI PROFESSIONAL SERVICES & CONSULTING

Yardi Consulting & Deployment

Strategic advisory, Voyager module setup (Job Cost, Fixed Assets, Investment Mgmt), system optimization, and deployment.

Custom Reporting (YSR & SSRS)

Tailor-made financial and operational reporting built with Yardi Spreadsheet Reporting (YSR), SSRS, and custom SQL stored procedures.

Building Custom Interfaces

Seamless API interfaces connecting Yardi Voyager with SAP Concur, CRM solutions, utility billing platforms, and expense reconciliation.
